- Table numbers remain the same as in last year's CD.
- The seasonally adjusted tables in CD1T47 to CD1T54 have been revised back three years (beginning with January 2004) based on the latest seasonal output. Also, all of the seasonally adjusted series have been reviewed for appropriateness, unique seasonal characteristics (such as moving or stable seasonality) and sampling errors associated with specific series that may change over time.
- The 2007 edition of the Guide to the Labour Force Survey (Catalogue no. 71-543) will be released in March 2007 on the Statistics Canada website ([www.statcan.ca](http://www.statcan.ca)). Last year's version is included in this CD.

The most recent CVs for monthly and annual estimates by province are included in the “Quality Indicators” section of this CD.

- Since April 24, 2006, all electronic publications available on the Statistics Canada website ([www.statcan.ca](http://www.statcan.ca)) are free of charge.
